- Essential fatty acid Omega 6 support
- 90 Soft Gel Capsules per pot

CONVENIENT OMEGA 6 ESSENTIAL FATTY ACIDS.

SPORT

WHAT IS IT?

Conjugated Linoleic Acid (CLA) is a naturally occurring omega-6 fatty acid that cannot be produced by your body. CLA is commonly found in meat and dairy, it can therefore be difficult to achieve the required amounts especially if you avoid those food groups.

WHAT MAKES IT DIFFERENT?

Maximuscle CLA soft gel capsules provide convenient Omega 6 support; a more personal and practical approach to supplementation.

HOW WILL IT HELP ME?

Omega 6 is an essential fatty acid, something that the body needs. Maximuscle CLA soft gels offer a easy way to bolster your diet. Made from Safflower oil, every capsules contains 1000mg of CLA.

WHEN SHOULD I USE IT?

Take 2 capsules 1-3 times per day. Ideally consume with food and spread across the day.

INFORMED-SPORT

The entire Maximuscle range is screened for banned substances and is accredited on the Informed-Sport programme.
